## ABSTRACT

Diploma work: 70 p., 2 Fig., 4 table, 42 sources of.

Development and implementation of the export; export policy; the People's Republic of China; indicators of the implementation of the export; the regulations governing the export policy

**The object of the study** is China's foreign export policy.

**The subject of the study** is the experience of the People's Republic of China in the development and implementation of export policy

**The purpose of the thesis** is to study the experience of the People's Republic of China in the development and implementation of export policy.

**Research methods:** The overall approach, methods of collecting data and methods of analyzing data.

**Research and development:** Analyze and study China's export policy, find out the problems and put forward suggestions for improvement.

**Elements of scientific novelty:** Improve China's export-related laws, export property rights system and other related laws and regulations, expand exports, and encourage innovation to promote the development of export trade.

**Scope of possible practical application:** This suggestion can be used as a reference for China in formulating and developing export trade policies.

**Technical, economic, social and (or) environmental significance:** Studying the problems of the People's Republic of China in formulating and developing export policies and putting forward corresponding suggestions can provide references for different countries when formulating their own export policies, and increase China's total export trade volume and promote China's foreign export trade.

The author of the work confirms that the data and analysis materials in this article are correct and objectively reflect the state of the research process. All theories, methodological regulations and concepts referenced from literature and other sources are accompanied by references to the corresponding authors.
